Language Clubs

Our **Language Club** product provides a whole new way of developing a second language

The club

- ❖ A weekly 60 minute language class.
- ❖ Once enrolled, delegates attend the club at the pre established time.
- ❖ Language clubs all take place on line using the Adobe Connect online classroom.
- ❖ A maximum of 6 delegates attend each club.

The Way it works

- ❖ An initial interview takes place to assess delegates current level.
- ❖ Delegates are grouped in appropriate leveled clubs.
- ❖ Club dates and times are issued to suit the members wherever they are around the world.
- ❖ Pework / course materials are emailed to the group
- ❖ Delegates attend the clubs using a standard phone line, and a web browser.
- ❖ A course facilitator runs the language learning club in realtime, online, with voice and webcam interface, delegate participation, plenary discussion, individual and group exercises. All facilitated online through Adobe Connect.
- ❖ If delegates have webcam's they can also be seen by other members of the club, but this is not essential.

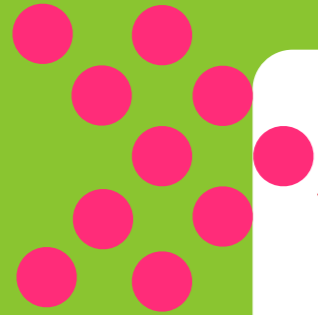

The facilitators

- ❖ All facilitators are experienced qualified language teachers, able to cover both conversational and business language.

The languages available

- ❖ Currently we can run clubs in English, French & German. Other languages can be included with notice.

Here are some of our great clients.
